## HEXAPOWER source

LED lighting source on rod.

### School level

Senior high school.

### Technical features

Black aluminium casing with hexagonal shape  
 Aluminium rod  $\varnothing 10$  removable  
 Lighting source: LED 10W on aluminium dissipator  
 Aspherical lens  $\varnothing 80$  F+100 in mineral glass  
 Ventilated  
 Longitudinal adjustment rod  $\varnothing 8$   
 Power supply: 18V (*included*)  
 1 diaphragm  $\varnothing 80$  letter D  
 Weight: 1.500 kg  
 Dimensions with rod: 100x100x250 mm  
 Packaging: individual box.

*Diaphragm letter D included*

### Product advantages

- **Excellent optical efficiency.**
- Perfect use for **prismatic benches with lenses  $\varnothing 80$ .**
- Lighting power equal to **75W halogen light.**

### Examples of experiments

- Focometry.
- Decomposition of light.

### Associated products

PRISMATIC optics bench – **DO106023**  
 Sliding holder lateral – **DO106024**  
 Lens holder  $\varnothing 80$ – **DO107011**  
 Lens  $\varnothing 80$  – **DO104043 to DO104051**  
 Adjustable slit– **DO106012**

*Included power supply 18V*
